

27. A method as claimed in claim 26, including generating a statistical model based on
B1
and
previous traffic flow to and from wireless transceivers, wherein the demand for capacity is predicted according to said statistical model.--

Remarks

With entry of the foregoing Amendment, claims 1-15, 18-20, 26 and 27 are pending in the present application, with claims 1, 6, 10, 13, 19, 20 and 26 being the independent claims. This supplemental preliminary amendment is believed to be fully supported by the Specification and is not believed to introduce new matter. Applicants respectfully request that the Examiner give favorable consideration to these claims. The Examiner is invited to telephone the undersigned representative if an interview might be useful for any reason.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.
